## TECHNICAL SKILLS

- ❖ **Programming Languages:** C, C++, and Basic DSA
- ❖ **Frontend:** HTML, CSS, Tailwind CSS, JavaScript and React.js
- ❖ **MS-Office:** MS-Word, Excel, and PowerPoint

## PROJECTS

- ❖ **A1 Computer Classes Website** (May '24 – June '24)  
**Tech Stack:** React.js and Tailwind CSS
  - Designed and built an A1 Computer Classes web application using ReactJS and Tailwind CSS.
  - Integrated key sections Course, Gallery, Contact, and About Us for a seamless user experience, focusing on responsiveness and visual appeal.
  - Deployed the application to Netlify and shared the link: <https://a1computerclasses.netlify.app/>
- ❖ **Food Ordering Website** (Feb '24 – March '24)  
**Tech Stack:** React.js and Tailwind CSS
  - Developed “FejFoodies” a stylish food ordering site with React.js and Tailwind CSS, featuring an attractive look and feel.
  - Implemented secure user registration and login functionality using Firebase, Simplifying the process for users to register and access the website.
  - Included useful functions such as searching for restaurants and filtering by ratings, distance, price, and dietary preferences like vegetarian and non-vegetarian options, helping users find exactly what they want to eat.
  - Deployed the application to Vercel and shared the link: <https://ekhlakh-fej-foodies.vercel.app/>
- ❖ **Personal Portfolio Website** (Aug '23 – Sept '23)  
**Tech Stack:** HTML, CSS, and JavaScript
  - Curated a comprehensive personal portfolio website that showcases my skills, Project, and professional journey.
  - Accessible to visitors my personal portfolio, view detailed project descriptions, and comprehensive overview of my qualifications.
  - Designed intuitive interface for seamless user experience, focusing on post management and interactions.
  - Deployed the application to Netlify and shared the link: <https://ekhlakh-personal-portfolio.netlify.app>
